As a homicide detective, Vanadium had a career-spanning ninety eight percent closure-and-conviction record on the cases he handled. Once convinced he had found the guilty party, he didn't rely solely on solid police work. He augmented the usual investigative procedures and techniques with his own brand of psychological warfare-sometimes subtle, sometimes not-which frequently encouraged the perpetrator to make mistakes that convicted him..Celestina told them about Nella Lombardi and about the message Phimie delivered to Dr. Lipscomb after being resuscitated. "Phimie was, . . so special. There's something special about her baby, too." "Everyone knows about Vanadium. He's a crusader, self-appointed champion of truth, justice, and the American way. A holy fool, if you will. With the case closed, he has no authority to harass you." Their apartment was in a four-story Victorian house that dripped gingerbread, in the exclusive Pacific Heights district. It had been converted to apartments with deep respect for the architecture, years before Wally bought it..must either change her mind or commit herself to a more difficult and challenging life than any she had envisioned only this morning..This wasn't the same Enoch Cain whom Vanadium had known three years ago in Spruce Hills. That man had been utterly ruthless but not a wild, raging animal, coldly determined but never obsessive. That Cain had been too calculating and too self-controlled to have been swept into the emotional frenzy required to produce this blood graffiti and to act out the symbolic mutilation of Bartholomew with a knife..Her hands shook as she

counted out the fare and the tip from her wallet. "I'm scared sick. Maybe you should just take me right back home." The only bad moment in the evening came when the pianist played "Someone to Watch over Me." Angel returned to the table for apple juice and to announce, "They got a cookie-jar Jesus!" Maria turned sideways in her chair and dealt from the top of the four-deck stack, onto the table in front of Barty. Olive complexion, no less smooth than the skin of a calamata. Eyes as lustrous as pools shimmering with a reflection of eternity and stars. Tom proved to be more useful than either a cop or a priest to Pie Lady Services, when he discovered a talent for money management that protected their funds from twelve percent inflation and in fact brought them a handsome return in real terms. Agnes had lifted him to this perch. Now she smoothed his hair, straightened his shirt, and retied his loosened shoelaces, finding it even harder than she had expected to say what needed to be said. She thought she might require Dr. Chan's presence, after all. He warily surveyed those around him as he walked, and looked over his shoulder from time to time. On one of these backward glances, he was unnerved but not surprised to see Vanadium's specter. If the ace of diamonds, in quartet, must be taken seriously, then why not the rest of the draw? She told him to stay on the line, stay on no matter what, told him to keep talking to her, and he hung up. Her voice was flat and a little hard. Another man might have mistaken her tone for disapproval, for impatience, even for quiet anger. She thought of herself as a creative person, a capable and efficient and committed person, but she did not think of herself as a strong person. Yet she would need great strength for what lay ahead. Disbelieving his eyes, Junior reached across his body with his left hand and picked up the quarter. Although it had been lying in his right palm, it was cold. Icy. In the three years since Perri's death, he had walked thousands of miles. He hadn't kept a record of the cumulative distance, because he wasn't trying to get into Guinness or to prove anything. Needles of rain knitted the air and quickly embroidered silvery patterns on the blacktop. Through tears, that night, she asked him if the commitment he was making didn't frighten him. The funeral was at two o'clock, after which family and friends of the deceased would gather here in the parsonage for a social, to break bread together and to share their memories of the loved one lost. Although the Rolex was expensive, Junior cared nothing about the monetary loss. He could afford to buy an armful of Rolexes, and wear them from wrist to shoulder. After the latest concerned nurse departed, Sheena leaned close. She cruelly pinched Junior's cheek between thumb and forefinger, as if she might tear off a goblet of flesh and pop it into her mouth. He knew the titles that he wanted: "Tunnel in the Sky, Between Planets, Starman Jones." "Thank you, Dr. Lipscomb. I'll keep track of what you're losing every month, and someday I'll pay it back to you." "You'll be out of ICU tomorrow, I bet. You'll have a phone, I'll call. And I'll come soon as I can." Although he considered tearing up the letter and throwing it away he knew that his perceptions were clouded by grief and that what he'd written might seem fine if he reviewed it in a less dark state of mind. He returned the letter to the envelope and put it in the drawer of his nightstand. Although Junior felt honor-bound to give Victoria first shot at him, he certainly didn't owe her monogamy. Eventually, when he had shaken off suspicion as finally as he had shaken off Naomi, he would be in the mood for a dessert buffet, romantically speaking, and one éclair would not satisfy. This momentous day. In every ending, new beginnings. But, thank God, no ending here. Fully clothed, she lay atop the bedspread. She intended to listen to a little classical music before brushing her teeth. "Brush your teeth, too," Celestina said, leaning against the jamb in the open doorway. Angel was lying on a towel on the convertible sofa, where Grace had just changed her diaper. Before Junior had become a physical therapist, he had considered studying to be a dentist. A low tolerance for the stench of halitosis born of gum disease had decided him against dentistry, but he still could appreciate a set of teeth as exceptional as these. She loosened her hair and brushed it out, and Nolly took her to dinner at their favorite place, which had the decor of a classy saloon and a bay view suitable for God's table. They came here often enough that the maitre d' greeted them by name, as did their waiter. The following morning, he canceled his German lessons. It was an impossible language. The words were enormously long. Before Celestina probed and perhaps touched upon a sore tooth of truth, Tom launched into the story of King Obadiah, Pharaoh of the Fantastic, who had taught him all he knew about sleight of hand. Having been an object of Thomas Vanadium's fixation, Junior felt fortunate to have survived. He shuddered. In the motel office, Junior paid for another night in advance. His preference in lodgings didn't run to greasy carpeting, cigarette-scarred furniture, and the whispery scuttling of cockroaches in the dark, but though feeling better, he was too tired and shaky to drive. Although Vanadium had been morally certain about the identity of his assailant, intuition without evidence was not sufficient to stir the authorities into action-not against a man on whom the state and county had settled \$4,250,000 in the matter of his wife's mortal fall. They would appear either to be incompetent in the investigation of Naomi Cain's death or to be pursuing Enoch in the new matter out of sheer vindictiveness. Without stacks of evidence, the political risks of acting on a policeman's instinct were too great. Initially, when told that his patient was a Negro, Junior had been reluctant to serve as her physical therapist. Her program of rehab required mostly structured exercise to restore flexibility and to gain strength in the affected limb, but some massage would be involved, as well, which made him uncomfortable. Apparently, he'd been drooling for a long time. Where his chin and throat were not sticky, a crust of dried saliva glazed his skin. "Your mother's an artist. Besides, you wouldn't want to put poor Mrs. Ornwalt out of a job, would you?" So it became dangerous to practice sorcery, except under the protection of a strong warlord; and even then, if a wizard met up with one whose powers were greater than his own, he might be destroyed. And if a wizard let down his guard among the common folk, they too might destroy him if they could, seeing him as the source of the worst evils they suffered, a malign being. In those years, in the minds of most people, all magic was black. Throughout the evening, Barty and Angel-sitting side by side and across the table from Paul-listened to the adults at times and occasionally joined in the larger conversation, but primarily they talked between themselves. When the kids' heads weren't together conspiratorially, Paul could hear their chatter, and depending on what else was being discussed around the table, he sometimes tuned in to it. He picked up on the word rhinoceros, tuned in, tuned out, but a couple minutes later, he dialed back in when he realized that Celestina, sitting two places farther along the table from him, had risen from her chair and was staring in amazement at the kids. When she left Our Lady of Sorrows a few minutes later, she was convinced that the knave of spades--whether a human monster or the devil himself-would never cross paths with Barty Lampion. Paul in the guest room again. Sweeping a bedside lamp to the floor, lifting the nightstand. "Well," Kathleen said, "even if the money wasn't so nice, I'd be sorry to see this case end." Edom felt uneasy in this kingdom of a strange god. The god that his brother feared was humanity, its dark compulsions, its arrogance. Edom, on the other hand, trembled before Nature, whose wrath was so great that one day she would destroy all things, when the universe collapsed into a super dense nugget of matter the size of a pea. He had been stowed in a storeroom of one of the old palaces that Losen had appropriated. It had no window, its door was cross-grained oak barred with iron, and spells had been laid on that door that would have kept a far more

experienced wizard captive. There were men of great skill and power in Losen's pay. Hound did not consider himself to be one of them. "All I have is a nose," he said. He came daily to see that Otter was recovering from his concussion and dislocated shoulder, and to talk with him. He was, as far as Otter could see, well-meaning and honest. "If you won't work for us they'll kill you," he said. "Losen can't have fellows like you on the loose. You'd better hire on while he'll take you." For a while, Celestina had worried that the girl was slower to walk than other children, slower to talk, and slower to develop her vocabulary, even though Celestina read aloud to her from storybooks every day. Then, during the past six months, Angel had caught up in a rush though she traveled a road somewhat different from what the childrearing books described. Her first word was mama, which was fairly standard, but her second was blue, which for a while came out "boo." At three, an average child would be doing exceptionally well to identify four colors; Angel could name eleven, including black and white, because she was able routinely to differentiate pink from red, and purple from blue. "If they always go there, smooosh--smooosh, then you're going to wind up with one really fat finger." He groaned. "That just doesn't cut it, Mom. If I gotta be blind, I think I should get to say peed off." Considering his formidable size, his clothes ought to have served an image of virile masculinity: boots, jeans, red flannel shirt. His ducked head, slumped posture, and shuffling feet were reminders, however, that many young boys, too, dressed this way. The odds against drawing a jack of spades four times in a row out of four combined and randomly shuffled decks were forbidding. Jacob didn't have the knowledge necessary to calculate those odds, but he knew they were astronomical. Junior had made a mistake when he smashed the pewter stick into Vanadium's face after the cop was already unconscious. He should have bound the bastard and attempted to revive him for interrogation. Matching his mother's whisper, taking obvious delight in their conspiracy, he said, "Our own secret society." Twenty minutes later, at home, he poured sherry over ice. Sipping, he stood in the living room, admiring his two paintings. "Great guy. Do you have an address for her, a way maybe I could get in touch about her brother?" Traditional logic argued that an infant, no more than two weeks old, could not be a serious threat to a grown man. Heart racing, Tom produced another quarter from a pants pocket. For the benefit of the adults, he performed the proper preparation--a little patter and the ten-finger flimflam--because in magic as in jewelry, every diamond must have the proper setting if it's to glitter impressively. "Can't pay us as well as Losen does. But we could live," Otter argued. She was astonished and moved. "I'm a hopeless throwback to the nineteenth century. How could you realize what's been on my mind?" Every mother also believes that her baby is smarter than other babies. Sadly, time and the child's choices in life usually require her to adjust her opinion as she never will in the matter of physical beauty. From his early adolescence, Edom was drawn to gardening, taking special pleasure in the cultivation of hybrid roses. He'd been only sixteen when one of his blooms earned first place in a flower show. When his father learned about the competition, he regarded Edom's pursuit of the prize as a grievous sin of pride. The punishment left Edom bedridden for three days, and when he came downstairs at last, he discovered that his father had torn out all the rose bushes. She stepped to the bed, bracketing Junior between her and Big Rude. The stream of obscene invective issuing from Sheena made Junior feel as if he had gotten in the way of a septic-tank cleanout hose. He hadn't seen Thomas Vanadium since Monday, at the cemetery, and Vanadium hadn't pulled any tricks since leaving twenty-five cents at his bedside that same night. Almost four days undisturbed by the hectoring detective. In matters Vanadium, however, Junior had learned to be wary, prudent. As Junior was about to knock again, the door flew inward, and over Sinatra having fun with "When My Sugar Walks Down the Street," Victoria said, "You're early, I didn't hear your car--" She was speaking as she pulled the door open, and she cut herself off in midsentence when she stepped up to the threshold and saw who stood before her. Slamming through the door, letting it bang shut behind him hard enough to crack the glass, crossing the porch, Tom took the beauty of the day like a fist in the gut. It was too blue and too bright and too gorgeous to harbor death, and yet it did, birth and death, alpha and omega, woven in a design that flaunted meaning but defied understanding. It was a blow, this day, a hard blow, brutal in its beauty, in its simultaneous promises of transcendence and loss. With his sister's financial backing, Edom purchased a flower shop in '71, after ascertaining that the strip mall in which it was located had been even more soundly constructed than the earthquake code required, that it didn't stand on slide-prone land, that it did not lie in a flood plain, and that in fact its altitude above sea level ensured that it would survive all but a tidal wave of such towering enormity that nothing less than an asteroid impact in the Pacific could be the cause. In '73, he married Maria Elena (that boy-girl thing, after all), whereupon she became Agnes's sister-in-law in addition to having long been a full sister in her heart. They bought the house on the other side of the original Lampion homestead, and another fence was torn down. White as a Viking winter, these magnificent choppers, and as straight as the kernel rows in the corn on Odin's high table. Superb occlusal surfaces. Exquisite incisor ledges. Bicuspid of textbook formation nestled in perfect alignment between molars and canines. During the drive, he alternated between great gales of delighted laughter and racking sobs wrought by pain and self-pity. The voodoo Baptist was dead, the curse broken with the death of he who had cast it. Yet Junior must endure this final devastating plague. Wally switched off the engine and killed the headlights. Paul was nearest to that corner when he halted Grace in her rush toward certain death. Before he quite realized what he was doing, he found that he'd flung open the door and climbed half the single long flight of steps, as surefooted as Doc Savage or the Saint, or the Whistler, or any of the other pulp-fiction heroes whose exploits had for so long been his adventures by proxy. The porch light wasn't on. No landscape lighting brightened the backyard. Barty was a gray shadow moving through darkness and through the darkling drizzle. When Agnes turned her head and saw Maria Elena Gonzalez, she thought she must be dreaming again. "There must be something important I'm supposed to do here that I don't need to do everywhere I am, something I'll do better if I'm blind." Junior was tempted to experiment with the controls. Maybe other messages were recorded on the machine. Listening to them would be delicious--even if every one of them turned out to be as meaningless to him as Max's--a little like browsing through a stranger's diary. The aging, fugitive Nazi had been replaced at the front desk by a woman with messily chopped blond hair, a brutish face, and arms that would dissuade Charles Atlas from challenging her. She changed a five-dollar bill into coins for the vending machines and snarled at him only once in strangely accented English. Instead, trying not to let Barty see the depth of her concern, she told him to get his jacket from the front closet, and she got hers, and leaving the buttermilk-raisin pies unfinished, she drove him to the doctor's office, because he was her reason to breathe, the engine of her heart, her hope and joy, her everlasting bond to her lost husband. Dr. Joshua Nunn was only forty-eight, but he had appeared grandfatherly since Agnes had first gone to him as a patient after the death of her father, more than

ten years ago. His hair turned pure white before he was thirty. Every day off, he either worked assiduously on his twenty-foot sportfisher, Hippocratic Boat, which he scraped and painted and polished and repaired with his own hands, or puttered around Bright Bay in it, fishing as though the fate of his soul depended on the size of his catch; consequently, he spent so much time in the salt air and sun that his perpetually tan face was well-wizened at the corners of his eyes and as appealingly creased as that of the best of grandfathers. Joshua applied the same diligence to the preservation of a round belly and a second chin that he brought to the maintenance of his boat, and considering his wire-rimmed eyeglasses and bow tie and suspenders and the elbow patches on his jacket, he seemed to have intentionally sculpted his physical appearance to put his patients at ease, as surely as he had selected his wardrobe for the same purpose..Bartholomew had been able to focus his eyes much sooner than the average baby was supposed to be able to focus. To a surprising extent, he was already engaged in the world around him.."I've already told them," Joey said, wheeling away from her and yanking open the door of the foyer closet with such force that she thought he would tear it off its hinges..She moved beside him. "For one minute, after her heart stopped the first time, she wasn't here in St. Mary's, was she? Her body, yes, that was still here, but not Phimie.".She searched the child's unfocused eyes for some sign of the hateful father's wickedness..During the preparation of the cards, Barty had fallen asleep in his mother's arms, but with the revelation of his name on the ace, he had awakened again, perhaps because with his head resting on her bosom, he was alarmed by the sudden acceleration of her heartbeat..A man with beautiful celadon eyes, his face beaded with jewels of rain, reached through the cut-away door and removed the blanket from Agnes.."Periodic violent emesis without an apparent cause can be one indication of locomotor ataxia, but you've no other symptoms of it. I wouldn't worry about that unless this happens again."
